

During December 2014, **ABA International** members supported & participated in a new European skills training and safety initiative with a large group of partners from around Europe. The VET-SAFETY project was officially launched in Czech Republic following an earlier preliminary meeting held in Denmark. The project is funded by the European Union as part of the Erasmus + programme and is aimed at the vocational education & training sector. ABA International will continue to promote & support this exciting new initiative as it develops over the next few years.

### UPCOMING MEETING

Chainsaw Assessor training, standard setting & certification event held in Brasov, Romania on 23-27 March 2015.
